

About Us

YOUR IT SOLUTIONS PARTNER

When you partner with Pure Technology, you're not just getting another IT vendor, you're gaining a business partner with over 20 years' experience! Our business is **technology** and our goal is to become your **trusted** partner so you can focus on **your** business and let us focus on your IT.

INDUSTRY LEADING SOLUTIONS

We know our customers expect reliable, industry leading solutions – that's why we partner with major vendors like Microsoft, Google, Dell, Intuit, TrendMicro, and RingCentral just to name a few. Whether you're looking for a single computer purchase or a complex multi-site network rollout, you'll find that Pure Technology can provide your business with right solution for your budget.

PEACE-OF-MIND DELIVERED

Our talented staff can work with your organization from concept to completion and we'll stick with you through each phase of your project such as design, planning, procurement, installation, configuration, customization, training, and finally support. Of course, we can always work alongside your team through any individual need as necessary. Our "peace-of-mind" service plans provide virtually unlimited 24/7 support at a fixed monthly cost insuring predictability and reliability for your employees.

RESTAURANT / RETAIL FOCUSED

Businesses in the restaurant and retail industries require a different level of service and dedication. Since your business relies on up-time of systems such as POS or digital signage, we go the extra mile to insure your system is running at peak performance. By working with quality hardware and software vendors, insuring our installations meet industry standards such as PCI compliance, and working alongside your team to better understand your business operations, we provide the **right solution** for both your needs *and* your budget *plus* we save you money by becoming a single point of contact for all your store's technology needs!
